*Bank Holidays & Public Holidays are not included in expected delivery time and date & it also does not include Saturday deliveries.

International delivery time is an estimate based on the most common experiences of our couriers. Custom's handling time may vary for each country.

South America, Mexico, Africa, Australia, Canada, Saudi Arabia, Taiwan might take few extra days due to custom checks. If you are ordering from these countries, we would recommend to go for the below mentioned shipping options instead of the regular postal services. The countries previously mentioned are the ones we received feedback about lengthy custom checks.

Once your order is dispatched, you will receive a tracking number with which you can follow the shipment! All orders are shipped as signed and tracked orders, which means that your signature is required on receipt of the order! If for any reason, you are unable to sign, you should expect a notification from the courier with the information and instruction on where and when you can collect the goods.

Usually it is the nearest post office to your address, however it is always better to double check.

Some countries, outside of the European Union are subject to additional custom/import fees, which is charged once the package reaches the destination country.

Make sure you are aware of custom regulations before placing your order, as a customer, it is solely your responsibility to be aware of these regulations in the county where you reside.

Other shipping options include:

- Parcelforce Worldwide
- TNT
- UPS
- DPD
- GLS

To learn more about the services and policies of these companies, make sure you visit their websites, as once the you opt for their services when completing your order, they take full responsibility on shipping services.
